

Duct Cleaning and Sealing

- Let us know if the vents are on the floor, wall, or ceiling. If on the wall or ceiling, let us know how high your ceilings are so we can bring all equipment needed.
- Move all furniture and items away from the vent openings.
- Remove vent covers including the cold air return. It is advised to clean these while they are detached. You will need to replace these after the cleaning.
 - If you need assistance removing/replacing vent covers or moving furniture, there will be an additional charge and you will need to sign a waiver for any possible damages.
- Please have animals put away before the technician arrives.
- Your family, pets, and all living things will be required to leave before the technician begins fogging.
- **You will need to stay out of the house for at least an hour.**
